

# Monthly Report

Report of Month : 01 Dec – 31 Dec 2024

Month Report of	01 Dec – 31 Dec
Date	01 Dec 2024
To	ICT Manager
From	ICT Assistance

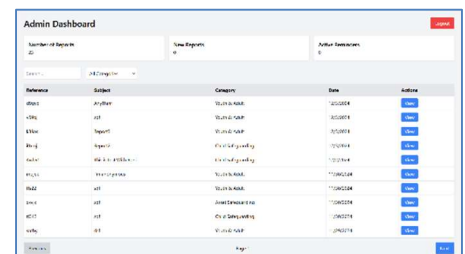

## Tasks accomplished:

### 01/12/2024 (Sunday)

1. Updated database of the IDPs in the camp. Keeping this information current. Also, have the latest list from UNICEF, and ensure to cross-reference it with the data of IDPs. Checked if there are any discrepancies or if need further clarification.

### 02/12/2024 (Monday)

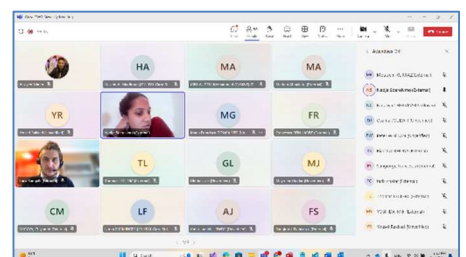

1. Discussed the latest status about the developing of incident management reporting system.

### 03/12/2024 (Tuesday)

1. Implementing techniques to ensure that even if a user manipulates client-side data, they won't gain unauthorized access to sensitive parts of application. Use encrypted cookies instead of sessionStorage.
2. Gaza CWG Biweekly Meeting.

```
109 //Cookies will only be sent over HTTPS, cannot be accessed via JavaScript, and will work only with the same domain.
110 // Set token as a secure, HTTP-only cookie
111 res.cookie("authToken", token, {
112   httpOnly: true,
113   secure: process.env.NODE_ENV === "production" && req.secure, // Adjust for local testing // Enable in production
114   sameSite: "strict",
115   maxAge: 3600000, // 1 hour
116 });
117
```

### 04/12/2024 (Wednesday)

1. Regularly test incident app for vulnerabilities.

### 05/12/2024 (Thursday)

1. Using debugging tools, like Redux DevTools and Context API to store user information after fetching it once from the backend. Also, ensuring Redux DevTools are disabled in production.
